**Supply, installation, testing and commissioning of Lifts at Janamaithri Hall,  
Police Headquarters (PHQ), TVPM**

**Scope of work:**

The scope of work includes supply, installation, testing and commissioning of new lifts including provisions for dismantling and buy back of the existing lifts.

**Replacement of the existing Lifts**

The Janamaithri Building at PHQ is equipped with two passenger lifts (AE 179 and AE 178) that have become obsolete due to prolonged usage. The lifts now require frequent maintenance and repairs, resulting in recurring operational disruptions. Furthermore, the non-availability of spare parts has made their upkeep increasingly difficult and uneconomical.

Considering the operational requirements, passenger safety, the age and deteriorating condition of the lifts, the difficulty in procuring spare parts, and the long-term maintenance implications, it has become necessary to replace the existing lifts with new, modern passenger lifts to ensure safe, reliable, and uninterrupted service.

**The successful bidder shall dismantle and remove the existing lifts and shall quote the buy-back value of the old lifts in the Financial Bid (BOQ).**

The details of the existing lifts are furnished below:

Lift No. 1

Make	-- Axis Elevators & Escalators

- i) Payment shall be released only after successful installation, testing and commissioning of the lifts and certification by the competent authority.

### **Additional work :**

#### **I. Civil and electrical modification works connected with lift installation**

1. Cladding work at entrance wall on all landing floors:- Minor cladding work is required at all landing entrances due to modification of the landing opening. The revised lift entrance opening width is 800 mm, and corresponding finishing works are necessary for proper aesthetics and alignment.

2. Construction of new buffer bed for car and counterweight (CWT):- Construction of new RCC buffer beds shall be carried out in accordance with the approved lift layout and manufacturer's requirements.
3. Closing of openings at headroom chequered plate level:- Existing openings identified at headroom level shall be closed using suitable chequered plate arrangements to ensure safety and compliance with installation standards.
4. Rectification of shaft lighting (if required):- Existing shaft lighting arrangements shall be inspected and corrected/augmented wherever required to comply with lift installation and maintenance requirements.
5. Any other components/items required for the proper installation and functioning of the new lifts shall be provided by the bidder.
