(4) PHQ Circular No.09/2002 dtd 09/08/2002.  
(5) PHQ Circular No.12/1995 dtd 06/05/1995.  
(6) PHQ Circular No.17/1993 dtd 03/05/1993.

\*\*\*\*

With an objective of Policing, our National Highways and to prevent road accidents along the National Highways in the State, a system of Highway Patrols was introduced in the year, 1993. Various circulars (as mentioned above) have been issued over the years, fixing the responsibilities, area of operation, job content, supervision and control, etc. of the Highway Patrol vehicles. The numbers of Highway Patrol vehicles were also periodically raised from 14 vehicles to the present 56 number of Highway Patrol vehicles, which are operating in the State. SOP in this regard was issued in 2014 and modified from time to time. With the ever changing situation on Kerala Highways and considering the increasing accidents in 2018, it is decided to revamp the Highway Patrols, by making it district wise and also making the District Police Chief's directly responsible for the proper and effective functioning of the Highway Patrols.

**02.** With a view to closely monitor and supervise the effective functioning of the Highway Patrols, the system was brought under the overall supervision of IGP, Traffic & Road Safety Management, and under the direct command and control of SP-Traffic, North Zone/South Zone, as per the order cited 1<sup>st</sup>. But the dual control has not proved to be beneficial in the effective functioning of the Highway Patrols. Hence the overall superintendence and control of the Highway Patrols, is transferred to the concerned District Police Chief's, with the IGP Ranges, being the Supervisory Officers.

**03. The Highway Patrol are rechristened as "Highway Police" and the jurisdictions of the Highway Patrols is also limited to the territorial jurisdiction of the districts. They will also be renamed, district wise, as per the details in Annexure "I".**

**04. A. Responsibility of Range DPC's / SDPO's/Range IGP's**

- a) The DPC's will hold the full administrative control of all Highway Police, under their jurisdiction.
- b) They will conduct regular surprise checks on the Highway Police vehicles, as many times, as possible
- c) The Range IsGP will check all the Highway Police vehicles, when they are on tour. They can see their location in Computer as all Highway Police vehicles are fitted with GPS.
- d) The DPCs will check all the Highway Police vehicles in their jurisdiction, once every fortnight (mandatory) and send reports through e-mails to IGP Range.
- e) The SDPOs will check the Highway Police Vehicles under their jurisdiction , atleast once a week.
- f) The checking should be done more on a positive note, to guide the Officers on how to be more effective in regulation & enforcement.
- g) The checking should be conducted primarily in the odd hours of the night/early morning and also during peak traffic hours.

**B. The responsibilities of the IGP Traffic & RSM and the Traffic SP's, would be as follows.**

- a) The SP-Traffic, North Zone/South Zone will now exercise only functional control over the Highway Patrols.
- b) They should monitor their performance of the Highway Patrols on a regular basis, through daily reports to be taken at 08.00 AM every day and sent to IGP-Traffic & RSM with copy to concerned DPCs & Range IsGP through e-mails.
- c) They will also check all the Highway Patrol vehicles in their jurisdictions at least once every month. This interalia means every day SP Traffic concerned will check at least one Highway Patrol.

- d) The checks should primarily be conducted during odd hours of the night or holidays and during busy traffic hours.
- e) They should also report the deficiencies in the functioning of the Patrols/equipment deficiency/defects to the IGP Traffic & RSM and the concerned DPC's on a fortnightly basis.
- f) They should send a weekly report on the functioning and performance of the Highway Patrols to the IGP-Traffic & RSM.

### **General Instructions**

- The vehicles for Highway Police are brought directly under the concerned districts. The responsibility for documentation, upkeep, maintenance and POL for these vehicles will be fully with the concerned DPC, as earlier.
- All Special Operational items mandated to be available in each Patrol vehicle should be made available in each vehicle by the DPC. The required specialized equipment's to be available in each Highway Police vehicle are attached as Annexure II & III. Any laxity in this regard will initiate action against the concerned officers.
- The jurisdiction of all Highway Patrols are re-drawn and limited to the district jurisdiction. Each district will now have 2-5 Highway Patrol vehicles and they have been numbered district was as given in the Appendix. The whole responsibility of effective functioning of their Highway Patrol vehicles, will now rest with the DPC's.
- SIs of Police working in Highway Police will be considered as on "Traffic duty" and they will be competent to compound Traffic offences, as provided in Government Notification No. G.O.(P) No. 9/2002 dated 20/03/2002.
- Administrative documentation relating to the personnel in the Highway Police and transaction of money collected by way of fine, etc. will be through the Base Station and it should be accounted in the concerned DPO Finances.
- The duties of Highway Police will primarily be "Traffic Enforcement" with a view to prevent road accidents and bring relief to victims of accidents. They will also attend to prevention/detection of other offences like offences under Abkari Act, NDPS Act, Special and Local Acts and report

the same directly to the Police Station under information to the concerned District Police Chief's.

- Documentation relating to offences requiring registration of FIR will be made at the nearest Police Station, located along the National Highway (irrespective of jurisdiction),
- Under no circumstance will the Highway Police Vehicle/Party be diverted to any other place or for any other duty. They are specifically prohibited from piloting / escorting VIPs. It shall be the duty of the Officers of the Highway Patrol to clear traffic obstructions along the Highway. If any obstruction is noticed, immediate action should be taken to clear the same.
- The Highway Patrols should check all suspicious vehicles and check for illicit transport of arms and ammunition, illegal transport of spirit, sand, drugs, currency, etc. Even when they find that the transport of the sand is with a legal permit, they should note the facts and details of the permit in the GD, so that the permit is not misused, another time for the transport of sand. Officers in charge of the Highway Patrols should follow the instructions scrupulously, for any misuse will be severely dealt with.
- Any information regarding any traffic accidents/incidents shall immediately be Police Station and the Operational Base P.S. The Patrol shall make arrangements immediately to clear traffic obstructions after marking the position of vehicles at the scene of accident. They shall also render immediate assistance by way of arranging first aid and removal of injured people to hospitals nearby. Arrangements to guard the personal belongings of the people injured in accidents will also be made.
- The primary role of the Highway police is to prevent accidents and for achieving this objective, they are expected to perform traffic enforcement duties effectively.
- The Officers of the Highway Police should avoid bad language while dealing with the Public, avoid getting into arguments, move at normal speed while patrolling, get out of the vehicle when it is parked in busy areas, and avoid sleeping in early hours, as has been noticed in the recent past.

**05.** The primary objective of Highway Police system is to prevent road accidents, provide relief to those involved in road accidents, keep a close watch on criminal activities along the Highways, and make the Highways in Kerala safe for the travellers. With the increasing accidents in Kerala in the Year 2018, and that too most of them occurring on Highways, is a clear reminder to the fact, that the intervention of the Highway Police vehicle has not been effective, as expected of them.

**06.** All DPC's are strictly instructed to give utmost attention to the effective functioning of the Highway Police, to achieve the objectives, for which they were created.

Nov. 26/4/2019

**Loknath Behera IPS**  
**DGP & State Police Chief, Kerala**

To

IGP Traffic & RSM,

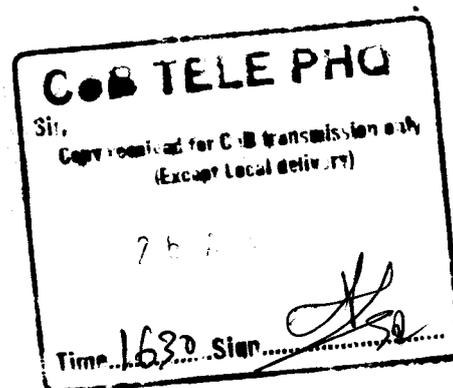

All DPCs

SP-Traffic NZ/SZ

All Officers in List 'B'

SP HQ, SP Traffic SZ shall make necessary amendments in the book "Highway Police" -SoP and put up the draft in a weeks time without fail.

Copy to: Circular Book / Stock File / PIC
