Great Success for in-service training in Police;

54903 Police Personnel trained

The training programs conducted last year to increase the efficiency of police personnel working in various wings of Kerala Police have achieved great success. Dr. B Sandhya, ADGP Training, has stated that 54,093 police personnel have been trained in different fields in 2019, which was observed as cyber training year.

The training was conducted after analyzing the training needs of police by including all wings of police. A special mobile application enabled in the 489 Police Stations helped the Police Personnel to attend the classes online which were held at the Police Training College in Thiruvananthapuram and the Kerala Police Academy in Thrissur. The mobile application also enabled the users to ask questions and engage in discussions online. Offline classes made available in the application helped many of the police personnel to view the classes during rest time.

23,106 Police Personnel have been trained in Cyber related subjects. 26,216 Police Personnel were trained in other subjects. 2,284 personnel have been trained via Webinar App and 965 have been trained via Crime Drive App. 1500 Police Personnel were given training as certified trainers. 22 numbers of IPS officers have also been trained during this period. Three officers got training from abroad.

Dr. B Sandhya, ADGP, has expressed gratitude to all officers for making the training program a great success. She also added that training program will be continued this year also.
